

# D1xS2H 128dB(A) Alarm Horn Sounder

The D1xS2H alarm horn sounder has a sound output of up to 128dB(A) – a class leading, high performance globally certified audible notification signal. The robust Type 4/4X, IP66 marine grade, corrosion proof aluminium enclosure is approved for Class I & II Div 1, Zone 1 & 20, IECEx and ATEX Zone 1, 2, 21 & 22 explosion proof signalling applications.

Featuring 64 alarm tones, each of the 4 stage/channels can be remotely activated. Class D amplification provides a high sound output with a choice of two power modes. The threaded flameproof joint, multiple cable entries and duplicated, pluggable termination simplifies both installation and routine maintenance. The 24Vdc version is approved for public mode fire alarm use and the 100-240Vac version for general signalling use. SIL1 & SIL2 Route 2H compliant to IEC61508 (2010) as standard
